

The Impressionist Composite Door Collection

Style, security and performance....

We don't believe in compromising on quality. We've brought together materials to give you the very best in strength, easy maintenance, security, and weather resistance.

Our composite door is thick - but it's also very smart. In fact it's 44mm thick (compare that to conventional PVC panel doors at 28mm). And powerful too, its super-strong structural frame and up-to-the-minute hardware make our composite door even more secure. We also include the latest in door cylinder technology to beat the burglars. The door skin is fibre glass with a realistic timber grained finish, meaning you'll be looking great and secure in all weathers.

How your door looks is up to you. Like traditional-style or contemporary? You can choose from twenty-two styles in any colour inside and out. If you cannot see what you are looking for here, a call to the All Colour composite door experts will ensure you find what is best for you and your home.
